CONTENTS OF VOLUME 23

Volume 23, No. 1, 1991

Clinical Sciences

Clinical Review

Anabolic steroid-induced tendon pathology: a review of the literature
Jeffrey T. Laseter and Jeffrey A. Russell 1

Clinical Investigations

Thigh muscle function after partial tear of the medial ligament compartment of the knee
Pekka Kannus and Markku Järvinen 4

Static pre-load effect on knee extensor isokinetic concentric and eccentric performance
Reece C. Jensen, Bryan Warren, Carlton Laursen, and Matthew C. Morrissey 10

Resting metabolic rate and energy balance in amenorrheic and eumenorrheic runners
Merle Myerson, Bernard Gutin, Michelle P. Warren, Muriel T. May, Isobel Contento, Michael Lee, F. X. Pi Sunyer, Richard N. Pierson, Jr., and J. Brooks-Gunn 15

Body composition and sexual maturation in premenarcheal athletes and nonathletes
Sharon A. Plowman, Nora Y. Liu, and Christine L. Wells 23

Menstrual function and eating behavior in female recreational weight lifters and competitive body builders
Janet L. Walberg and Cutting S. Johnston 30

Basic Sciences/Regulatory Physiology

Original Investigations

Effects of warm-up on muscle glycogenolysis during intense exercise
Robert A. Roberts, David D. Pascoe, David L. Costill, William J. Fink, Jolanta Chwalbinska-Moneta, Jacqueline A. Davis, and Robert Hickner 37

Influence of muscle glycogen depletion on the rate of resynthesis
J. J. Zachwieja, D. L. Costill, D. D. Pascoe, R. A. Robergs, and W. J. Fink 44

Skeletal muscle following tonic overload: functional and structural analysis
Todd L. Johnson and Kathleen M. Klueber 49

Skeletal muscle staircase response with fatigue or dantrolene sodium
Brian R. MacIntosh 56

The effects of moderate exercise training on immune response
Sandra L. Nehlsen-Cannarella, David C. Nieman, Anne J. Balk-Lamberton, Patricia A. Markoff, Douglas B. W. Chritton, Gary Gusewitch, and Jerry W. Lee 64

Oxygen uptake and heart rate responses during hypoxic exercise in children and adults
Chaim Springer, Thomas J. Barstow, Karlman Wasserman, and Dan M. Cooper 71

Applied Sciences

Psychobiology and Social Sciences

Perceptual responses and blood lactate concentration: effect of training state
Richard L. Seip, David Snead, Edgar F. Pierce, Phyllis Stein, and Arthur Weltman 80

Effect of exercise modality on ratings of perceived exertion at various lactate concentrations
R. K. Hetzler, R. L. Seip, S. H. Boutcher, E. Pierce, D. Snead, and A. Weltman 88

Biodynamics

Physiological and biomechanical factors associated with elite endurance cycling performance
E. F. Coyle, M. E. Feltner, S. A. Kautz, M. T. Hamilton, S. J. Montain, A. M. Baylor, I. D. Abraham, and G. W. Petrek 93

A comparison of knee extensor strength curves obtained theoretically and experimentally
Walter Herzog, Evelyne Hasler, and Sheila K. Abrahamse 108

Physical Fitness and Performance

Fifteen-year changes in exercise, aerobic power, abdominal fat, and serum lipids in runners and controls
Bernard Marti, Michael Knobloch, Walter F. Riesen, and Hans Howald 115

The influence of electrocortical biofeedback on performance in pre-elite archers
Daniel M. Landers, Steven J. Petruzzello, Walter Salazar, Debra J. Crews, Karla A. Kubitz, Timothy L. Gannon, and Myungwoo Han 123

Special Communications

Methods

A segment interaction analysis of proximal-to-distal sequential segment motion patterns
Carol A. Putnam 130

Book Reviews 145
Information for Authors i
Policy Statement Regarding the Use of Human Subjects and Informed Consent vi
Policy Statement of the American College of Sports Medicine on Research with Experimental Animals vii

Volume 23, No. 2, 1991

Clinical Sciences

Clinical Epidemiology

Exertional sudden death in soldiers
Yaacov Drory, Mordechai R. Kramer, and Boaz Lev 147

Exercise and the incidence of upper respiratory tract infections
Gregory W. Heath, Earl S. Ford, Timothy E. Craven, Caroline A. Macera, Kirby L. Jackson, and Russell R. Pate 152

Clinical Investigations

Effects of hydraulic circuit training following coronary artery bypass surgery
Robert G. Haennel, H. Arthur Quinney, and C. Tissa Kappagoda 158

Physical activity and sleeping metabolic rate
Klaas R. Westerterp, Gerwin A. L. Meijer, Wim H. M. Saris, Peter B. Soeters, Yvonne Winants, and Foppe ten Hoor 166

Experimental Investigations

Effect of ultrasound therapy on the repair of Achilles tendon injuries in rats
Barry A. Jackson, James A. Schwane, and Barry C. Starcher 171

Basic Sciences/Regulatory Physiology

Original Investigations

Mitochondrial DNA sequence polymorphism, $\dot{V}O_{2max}$, and response to endurance training
France T. Dionne, Lucie Thurcotte, Marie-Christine Thibault, Marcel R. Boulay, James S. Skinner, and Claude Bouchard 177

Ventilatory responses and entrainment of breathing during rowing
Donald A. Mahler, Christopher R. Shuhart, Elizabeth Brew, and Therese A. Stukel 186

Effects of 30-h sleep loss on cardiorespiratory functions at rest and in exercise
Hsiun-ing Chen 193

Acute effects of resistance exercise on parameters of lipoprotein metabolism
M. Brian Wallace, Robert J. Moffatt, Emily M. Haymes, and Nancy R. Green 199

The relationship between body mass and oxygen uptake during running in humans
U. Bergh, B. Sjödin, A. Forsberg, and J. Svedenhag 205

Applied Sciences

Psychobiology and Sociology

Alterations in dietary carbohydrate, protein, and fat intake and mood state in trained female cyclists
Robert E. Keith, Kathleen A. O'Keeffe, Daniel L. Blessing, and G. Dennis Wilson 212

Athletic footwear: unsafe due to perceptual illusions
Steven E. Robbins and Gerard J. Gouw 217

Biodynamics

Segmental contributions to total body momentum in sit-to-stand
Yi-Chung Pai and Mark W. Rogers 225

Effect of activation force on knee extensor torques
John F. Kramer, Margaret D. Vaz, and Donna Hakansson 231

Physical Fitness and Performance

Maximal metabolic responses of deep and shallow water running in trained runners
Glenn P. Town and Scott S. Bradley 238

Effects of pedaling speed on the power-duration relationship for high-intensity exercise
Tony G. Carnevale and Glenn A. Gaesser 242

Special Communications

Methods

Wrestlers' minimal weight: anthropometry, bioimpedance, and hydrostatic weighing compared
Robert A. Oppliger, David H. Nielsen, and Carol G. Vance 247

The accuracy of coaches' estimates of minimal wrestling weight
Terry J. Housh, Glen O. Johnson, and Dona J. Housh 254

Technical Note

Within-cycle characteristics of the wheelchair push in sprinting on a wheelchair ergometer
H. E. J. Veeger, L. H. V. van der Woude, and R. H. Rozendal 264

Letter to the Editor-in-Chief

Howard Brody 272

Volume 23, No. 3, 1991

Clinical Sciences

Clinical Symposium: Obesity: Diet Composition, Energy Expenditure, and Treatment of the Obese Patient
Chairperson: Wayne C. Miller

Introduction: obesity, diet composition, energy expenditure, and treatment of the obese patient
Wayne C. Miller 273

Body fat accretion: a rat model
P. A. Scotellaro, L. L. Ji, J. Gorski, and L. B. Oscai 275

Diet composition, energy intake, and nutritional status in relation to obesity in men and women
Wayne C. Miller 280

Heredity and the path to overweight and obesity
Claude Bouchard 285

Factors common to successful therapy for the obese patient
John P. Foreyt and G. Ken Goodrick 292

Case Studies

An unusual stress fracture in a multiple sport athlete
James C. Sterling, Russell D. Calvo, and Scott C. Holden 298

Chronic compartment syndrome caused by aberrant fascia in an aerobic walker
Stephen R. Soffer, David F. Martin, William D. Stanish, and Roger H. Michael 304

Basic Sciences/Regulatory Physiology

Original Investigations

The importance of volume in regulating gastric emptying
Timothy D. Noakes, Nancy J. Rehrer, and Ronald J. Maughan 307

The influence of volume on gastric emptying and fluid balance during prolonged exercise
Joel B. Mitchell and Kurt W. Voss 314

Gastric emptying during 1 h of cycling and running at 75% $\dot{V}O_{2max}$
Joseph A. Houmard, Paul C. Egan, R. Anderson Johns, P. Darrell Neufer, Tom C. Chenier, and Richard G. Israel 320

Whole body leucine metabolism during and after resistance exercise in fed humans
Mark A. Tarnopolsky, Stephanie A. Atkinson, J. Duncan MacDougall, Brett B. Senor, Peter W. R. Lemon, and Henry Schwarcz 326

Experimental pain thresholds and plasma beta-endorphin levels during exercise
Conrad Droste, Mark W. Greenlee, Martin Schreck, and Helmut Roskamm 334

Applied Sciences

Epidemiology

Physical activity by socioeconomic status in two population based cohorts
Jane A. Cauley, Sharyne M. Donfield, Ronald E. LaPorte, and Nancy E. Warhaftig 343

Psychobiology and Sociology

RPE, blood glucose, and carbohydrate oxidation during exercise: effects of glucose feedings
Maria Lonnett Burgess, Robert J. Robertson, J. Mark Davis, and Jami M. Norris 353

Biodynamics

Contribution of angular motion and gravity to tibial acceleration
Mario A. Lafortune and Ewald M. Hennig 360

The effect on performance of imposing a delay during a stretch-shorten cycle movement
Gregory J. Wilson, Bruce C. Elliott, and Graeme A. Wood 364

Physical Fitness and Performance

Adaptations to swimming training: influence of training volume
D. L. Costill, R. Thomas, R. A. Robergs, D. Pascoe, C. Lambert, S. Barr, and W. J. Fink 371

Variability in running economy and mechanics among trained male runners
Don W. Morgan, Philip E. Martin, Gary S. Krahenbuhl, and Fred D. Baldini 378

Special Communications

Methods

Effect of immersion on residual volume of able-bodied and spinal cord injured males
Pamela R. Bosch and Christine L. Wells 384

Technical Note

Prevalence of the sickle cell trait in an athletic West African population
Patrice Thiriet, Marcel Monny Lobe, Ikouam Gweha, and David Gozal 389

Book Reviews 391

Volume 23, No. 4, 1991

Clinical Sciences

Case Study

Radial growth plate injury in a female gymnast
Deborah L. Ruggles, Hamlet A. Peterson, and Steven G. Scott 393

Clinical Investigations

Effect of phonophoresis on serum salicylate levels
Robert S. Oziomek, David H. Perrin, David A. Herold, and Craig R. Denegar 397

Progressive vs single-stage treadmill tests for evaluation of claudication
Andrew W. Gardner, James S. Skinner, Bradford W. Cantwell, and L. Kent Smith 402

Lipid and lipoprotein profiles relate to peak aerobic power in spinal cord injured men
A. G. Bostom, M. M. Toner, W. D. McArdle, T. Montelione, C. D. Brown, and R. A. Stein 409

Experimental Investigatons

Metabolic responses to swimming exercise in *Streptococcus pneumoniae* infected rats
Göran Friman, Nils-Gunnar Ilbäck, Daniel J. Crawford, and Harold A. Neufeld 415

Effects of training on metabolic responses and performance capacity in *Streptococcus pneumoniae* infected rats
Nils-Gunnar Ilbäck, Göran Friman, Daniel J. Crawford, and Harold A. Neufeld 422

Basic Sciences/Regulatory Physiology

Original Investigations

Effects of steady state exercise on the power spectrum of heart rate variability
Markad V. Kamath, Ernest L. Fallen, and Robert McKelvie 428

Additive effects of caffeine and cold water during submaximal leg exercise
Thomas J. Doubt and Sandy S. Hsieh 435

Metabolic rate, not percent dehydration, predicts rectal temperature in marathon runners
T. D. Noakes, K. H. Myburgh, J. du Plessis, L. Lang, M. Lambert, C. van der Riet, and R. Schall 443

Plasma volume shifts with immersion at rest and two exercise intensities
Andrew C. Ertl, Edmund M. Bernauer, and Cynthia A. Hom 450

The effects of glucose polymer beverage ingestion during prolonged outdoor exercise in the heat
Daniel S. Seidman, Itamar Ashkenazi, Ronen Arnon, Yair Shapiro, and Yoram Epstein 458

Dissociation of the ventilatory and lactate thresholds following caffeine ingestion
Michael J. Berry, John V. Stoneman, Andrew S. Weyrich, and Beth Burney 463

Applied Sciences

Psychobiology and Sociology

Physiological and perceptual responses to cycle and treadmill exercise during pregnancy
James M. Pivarnik, Wesley Lee, and Joanna F. Miller 470

Use of graded exercise to evaluate physiological hyperreactivity to mental stress
Damon A. Delistraty, William A. Greene, Karen A. Carlberg, and Karen K. Raver 476

Biodynamics

The effects of shoes on the torsion and rearfoot motion in running
Alex Stacoff, Xaver Kälin, and Edgar Stüssi 482

Predicting the minimal energy costs of human walking
Kenneth G. Holt, Joseph Hamill, and Robert O. Andres 491

Physical Fitness and Performance

Muscular strength and bone density with weight training in middle-aged women
Susan E. Peterson, Matthew D. Peterson, Gera Raymond, Catherine Gilligan, Mary M. Checovich, and Everett L. Smith 499

Effect of exercise training on blood pressure in 70- to 79-yr-old men and women
Carmen C. Cononie, James E. Graves, Michael L. Pollock, M. Ian Phillips, Colin Sumners, and James M. Hagberg 505

Volume 23, No. 5, 1991

Clinical Sciences

Case Study

Malnutrition in a compulsive runner: a case conference
William O. Roberts and Diane L. Elliot 513

Clinical Investigations

Immune parameters in male athletes after a lacto-ovo vegetarian diet and a mixed Western diet
Erik A. Richter, Bente Kiens, Anne Raben, Niels Tvede, and Bente K. Pedersen 517

Structural measures as predictors of injury in basketball players
J. Philip Shambaugh, Andrew Klein, and John H. Herbert 522

Body composition in ballet dancers measured by total body electrical conductivity
Albert C. Hergenroeder, Marta L. Fiorotto, and William J. Klish 528

Total body water and fat-free mass in ballet dancers: comparing isotope dilution and TOBEC
Albert C. Hergenroeder, William W. Wong, Marta L. Fiorotto, E. O'Brian Smith, and William J. Klish 534

Basic Sciences/Regulatory Physiology

Brief Review

Acute inflammation: the underlying mechanism in delayed onset muscle soreness?
Lucille L. Smith 542

Original Investigations

The effect of exercise on plasma lipids and LDL subclass metabolism in miniature swine
Arthur F. Stucchi, Antonius H. M. Terpstra, Thomas L. Foxall, Robert J. Nicolosi, and Samuel C. Smith 552

Exercise training below and above the lactate threshold in the elderly
Michael J. Belman and Glenn A. Gaesser 562

Norepinephrine response to exercise of rats with a chronic myocardial infarction
Timothy I. Musch and Robert Zelis 569

The effects of acute moderate exercise on leukocyte and lymphocyte subpopulations
David C. Nieman, Sandra L. Nehlsen-Cannarella, Karen M. Donohue, Douglas B. W. Chritton, Bryan L. Haddock, Ron W. Stout, and Jerry W. Lee 578

Applied Sciences

Psychobiology and Sociology

Mentally retarded individuals—a population at risk?
Kenneth H. Pitetti and Kathryn D. Campbell 586

Effects of a minimally supervised exercise program for mentally retarded adults
Kenneth H. Pitetti and Daphne M. Tan 594

Biodynamics

Lower extremity joint kinetics and energetics during backward running
Paul DeVita and Janet Stribling 602

Physical Fitness and Performance

Metabolic determinants of 1-mile run/walk performance in children
William P. McCormack, Kirk J. Cureton, T. Allen Bullock, and Peter G. Weyand 611

The maximally accumulated oxygen deficit as an indicator of anaerobic capacity
Christopher B. Scott, Fred B. Roby, Timothy G. Lohman, and Joy C. Bunt 618

Special Communications

Methods

Effect of exercise testing protocol on parameters of aerobic function
Yong-Yu Zhang, Martin C. Johnson II, Norman Chow, and Karlman Wasserman 625

Technical Notes

Isoacceleration: a new concept of resistive exercise
Stephen H. Westing, Jan Y. Seger, and Alf Thorstensson 631

Relationship of heart rate to oxygen uptake during weight lifting exercise
Mitchell A. Collins, Kirk J. Cureton, David W. Hill, and Chester A. Ray 636

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
Rachel B. Shireman 641

Response
J. Larry Durstine and Laurie J. Goodyear 641

Book Reviews 642

Volume 23, No. 6, 1991

Clinical Sciences

Clinical Symposium: Physiologic Adaptations to Exercise Training in Cardiac Patients: Contemporary Issues and Concerns
Chairperson: Barry A. Franklin

Introduction: physiologic adaptations to exercise training in cardiac patients: contemporary issues and concerns
Barry A. Franklin 645

Exercise training and coronary collateral circulation
Barry A. Franklin 648

Exercise training in patients with impaired left ventricular function
L. Kent Smith 654

Physiologic adaptations to prolonged high-intensity exercise training in patients with coronary artery disease
James M. Hagberg 661

Effect of beta-blockers on exercise physiology: implications for exercise training
Neil F. Gordon and John J. Duncan 668

Exercise training, serum lipids, and lipoprotein particles: is there a change threshold?
H. Robert Superko 677

Exercise training after cardiac transplantation
Ray W. Squires 686

Clinical Investigations

Influence of lifetime cross-country skiing on plasma lipids and lipoproteins
James Stray-Gundersen, Margo A. Denke, and Scott M. Grundy 695

Basic Sciences/Regulatory Physiology

Brief Review

Effects of exercise training on glucose control, lipid metabolism, and insulin sensitivity in hypertriglyceridemia and non-insulin dependent diabetes mellitus
Richard M. Lampman and David E. Schteingart 703

Original Investigations

Responses to varying rates of carbohydrate ingestion during exercise
Robert Murray, Gregory L. Paul, John G. Seifert, and Dennis E. Eddy 713

Ventilatory response to sustained hypoxia during exercise
Denham S. Ward and Thomas T. Nguyen 719

Applied Sciences

Psychobiology and Sociology

Mood state and running economy in moderately trained male runners
Tracy J. Williams, Gary S. Krahenbuhl, and Don W. Morgan 727

Self-monitored exercise at three different RPE intensities in treadmill vs field running
Ruggero Ceci and Peter Hassmén 732

Physical Fitness and Performance

Effects of strength training on lactate threshold and endurance performance
E. J. Marcinik, J. Potts, G. Schlabach, S. Will, P. Dawson, and B. F. Hurley 739

Metabolic responses to drafting during front crawl swimming
David R. Bassett, Jr., Judith Flohr, William J. Duey, Edward T. Howley, and Richard L. Pein 744

Physiological responses to wrist weights during endurance cycling in normal subjects
Michael Sagiv, Arie Rotstein, David Ben-Sira, Amos Grodjinovsky, Nogah Fisher, and David Kaufmann 748

Effect of training on $\dot{V}O_{2max}$, thigh strength, and muscle morphology in septuagenarian women
M. Elaine Cress, D. Paul Thomas, Jill Johnson, Fred W. Kasch, Robert G. Cassens, Everett L. Smith, and James C. Agre 752

Special Communications
Methods

Physical activity, body composition, and blood pressure: a multimethod approach
Robert C. Klesges, Linda H. Eck, Terry R. Isbell, William Fulliton, and Cindy L. Hanson 759

Validation of the 12-min swim as a field test of peak aerobic power in young men
Donovan S. Conley, Kirk J. Cureton, Don R. Dengel, and Peter G. Weyand ... 766

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
Greg Kline ... 774

Response
Don Holbert ... 774

Volume 23, No. 7, 1991

Editorial ... 777

Clinical Sciences

Case Study

Lateral meniscal cyst: arthroscopic management
N. Maffulli, F. Petricciuolo, and E. Pintore ... 779

Clinical Review

Prophylactic lateral knee braces
James A. Johnston and Lonnie E. Paulos ... 783

Clinical Investigations

Sex, sport, and body-size dependency of hematology in highly trained athletes
Richard D. Telford and Ross B. Cunningham ... 788

Effect of increased training volume on blood lipids and lipoproteins in male collegiate swimmers
Susan I. Barr, David L. Costill, William J. Fink, and Robert Thomas ... 795

Experimental Investigations

Healing of skeletal muscle injury: an ultrastructural and immunohistochemical study
Timo Hurme, Hannu Kalimo, Matti Lehto, and Markku Järvinen ... 801

Basic Sciences/Regulatory Physiology

Original Investigations

Fluid replacement during prolonged exercise: effects of water, saline, or no fluid
Susan I. Barr, David L. Costill, and William J. Fink ... 811

Pre-exercise feeding does not affect endurance cycle exercise but attenuates post-exercise starvation-like response
Jorge Calles-Escandón, John T. Delvin, Winthrop Whitcomb, and Edward S. Horton ... 818

Lower thermic effect of a meal post-exercise in aerobically trained and resistance-trained subjects
Jennie A. Gilbert, James E. Misner, Richard A. Boileau, Lili Ji, and Mary H. Slaughter ... 825

Urine protein excretion and swimming events
J. R. Poortmans, M.-F. Engels, M. Selleir, and R. Leclercq ... 831

Applied Sciences

Psychobiology and Social Sciences Symposium: Catecholamines, Behavioral Stress, and Exercise
Chairperson: Mark S. Sothmann

Catecholamines, behavioral stress, and exercise—introduction to the symposium
Mark S. Sothmann ... 836

Catecholamine response to acute and chronic exercise
Robert S. Mazzeo ... 839

Behavioral correlates of sympathoadrenal reactivity: the toughness model
Richard A. Dienstbier ... 846

Exercise training and response to stress: insights from an animal model
Ronald H. Cox ... 853

Plasma catecholamine response to acute psychological stress in humans: relation to aerobic fitness and exercise training
Mark S. Sothmann, Barbara A. Hart, and Thelma S. Horn ... 860

Physical fitness, cognitive performance, and aging
Wojtek J. Chodzko-Zajko ... 868

Stress reactivity: hemodynamic adjustments in trained and untrained humans
Randal P. Claytor ... 873

Clinical Sciences

Case Studies

Osteochondritis dissecans of the lateral humeral condyle in a table tennis player
Ernesto Pintore and Nicola Maffulli 889

Hematuria in a young recreational runner
Diane L. Elliot, Linn Goldberg, and Edward R. Eichner 892

Basic Sciences/Regulatory Physiology

Symposium: Current Concepts in Lactate Exchange
Chairperson: George A. Brooks

Current concepts in lactate exchange
George A. Brooks 895

Regulation of muscle lactate production
W. N. Stainsby, W. F. Brechue, and D. M. O'Drobinak 907

Regulation of hepatic lactate balance during exercise
David H. Wasserman, Cynthia C. Connolly, and Michael J. Pagliassotti 912

Myocardial lactate metabolism during exercise
William C. Stanley 920

The sacrolemmal lactate transporter: transmembrane determinants of lactate flux
David A. Roth 925

Measurement of lactate production by tracer techniques
Steven L. Lehman 935

Pathways of hepatic glycogen synthesis in humans
Inger Magnusson and Gerald I. Shulman 939

Applied Sciences

Biodynamics

Daily variation in running economy of moderately trained male runners
Tracy J. Williams, Gary S. Krahenbuhl, and Don W. Morgan 944

The effect of body position on the energy cost of cycling
Timothy W. Ryschon and James Stray-Gundersen 949

Physical Fitness and Performance

Effects of a 15-d race on plasma steroid levels and leg muscle fitness in runners
Rudolph H. Dressendorfer and Charles E. Wade 954

The endurance triathlon: metabolic changes after each event and during recovery
Harrison W. Farber, Ernst J. Schaefer, Robert Franey, Robert Grimaldi, and Nicholas S. Hill 959

Special Communications

Methods

Development of a single-stage submaximal treadmill walking test
Cara B. Ebbeling, Ann Ward, Elaine M. Puleo, Jeffrey Widrick, and James M. Rippe 966

A physical activity questionnaire for the elderly
Laura E. Voorrips, Anita C. J. Ravelli, Petra C. A. Dongelmans, Paul Deurenberg, and Wija A. Van Staveren 974

Technical Note

Caffeine and sport: role of physical exercise upon elimination

Clinical Case Study

Case report: 30-yr-old female with exercise induced anaphylaxis
William W. Briner, Jr. and Peter J. Bruno 991

Clinical Review

Reproductive dysfunction in amenorrheic athletes and anorexic patients: a review
Mary Jane De Souza and Deborah A. Metzger 995

Clinical Investigations

Etiologic factors associated with patellofemoral pain in runners
Stephen P. Messier, Shala E. Davis, Walton W. Curl, Robert B. Lowery, and Robert J. Pack 1008

Acute antihistamine ingestion does not affect muscle strength and endurance
Leslie C. Montgomery and Patricia A. Deuster 1016

Basic Sciences/Regulatory Physiology

Original Investigations

Hemodynamic responses to 6 degree head-down rest in dogs: effect of aerobic conditioning
William G. Squires, Michael L. Smith, Tedd A. Brandon, Stephen A. Zinkgraf, Debra K. Rotto, Diane M. Rotto, Sarah A. Nunneley, and Peter B. Raven 1020

Plasma creatine kinase activity and exercise-induced muscle damage in older men
Thomas G. Manfredi, Roger A. Fielding, Kevin P. O'Reilly, Carol N. Meredith, Ho Yong Lee, and William J. Evans . 1028

Transfer effects of endurance training with the arms and legs
Yagesh N. Bhambhani, Peter Eriksson, and Paulo S. Gomes 1035

Changes in muscle fiber size and composition in response to heavy-resistance exercise
Alan E. Mikesky, Catherine J. Giddings, William Matthews, and William J. Gonyea 1042

Applied Sciences

Psychobiology and Social Sciences

Psychophysical power functions of exercise limiting symptoms in coronary heart disease
Christer Sylvén, Gunnar Borg, Alf Holmgren, and Hans Åström 1050

Psychobiologic effects of 3 d of increased training in female and male swimmers
Patrick J. O'Connor, William P. Morgan, and John S. Raglin 1055

Biodynamics

Dynamic performance assessment of selected sport shoes on impact forces
Janet S. Dufek and Barry T. Bates 1062

Body configuration and joint moment analysis during standing long jump in 6-yr-old children and adult males
Tomoki Horita, Kiyokazu Kitamura, and Nobuhiro Kohno 1068

Physical Fitness and Performance

Training intensity of elite male distance runners
Dean M. Robinson, Stewart M. Robinson, Patria A. Hume, and William G. Hopkins 1078

Maximal anaerobic performance of the knee extensor muscles during growth
Carlos Saavedra, Pierre Lagassé, Claude Bouchard, and Jean Aimé Simoneau 1083

Special Communications

Methods

Indices of sustained aerobic power in young middle distance runners
Nicola Maffulli, Vittorino Testa, Amedeo Lancia, Giovanni Capasso, and Sabato Lombardi 1090

Protocol dependency of $\dot{V}O_{2max}$ during arm cycle ergometry in males with quadriplegia
Peggy Lasko-McCarthey and James A. Davis 1097

Midwest wrestling study: prediction of minimal weight for high school wrestlers
William G. Thorland, Charles M. Tipton, Tim G. Lohman, Richard W. Bowers, Terry J. Housh, Glen O. Johnson, John M. Kelly, Robert A. Oppliger, and Tse-Kia Tcheng 1102

The effect of progressive exercise on the equilibrium rebreathing cardiac output method
J. Howland Auchincloss, Robert Gilbert, Rafaele Morales, and David Peppi 1111

Book Reviews 1116

Volume 23, No. 10, 1991

Clinical Sciences

Case Study

Cerebral stroke in a semi-pro football player: a case report
Stuart M. Weinstein and Robert C. Cantu 1119

Clinical Investigations

Patellar location changes following EMG biofeedback or progressive resistance exercises
Christopher D. Ingersoll and Kenneth L. Knight 1122

The $\dot{V}O_{2max}$ of recreational athletes before and after pregnancy
James F. Clapp III and Eleanor Capeless 1128

Strength training does not improve lipoprotein-lipid profiles in men at risk for CHD
P. F. Kokkinos, B. F. Hurley, M. A. Smutok, C. Farmer, C. Reece, R. Shulman, C. Charabogos, J. Patterson, S. Will, J. Devane-Bell, and A. P. Goldberg 1134

Basic Sciences/Regulatory Physiology

Symposium: Regulation of Myocardial Contractility
Chairperson: Glen F. Tibbits

Regulation of myocardial contractility
Glen F. Tibbits and Brian N. Hamman 1140

Regulation of Ca^{2+}-signaling in cardiac myofilaments
R. John Solaro 1145

Intracellular calcium during excitation-contraction coupling in mammalian ventricle
Withrow Gil Weir 1149

Ca regulation in cardiac muscle
Donald M. Bers 1157

Modulation of cardiac contractility by myosin light chain phosphorylation
Russell L. Moore, Timothy I. Musch, Joseph Y. Cheung 1163

Applied Sciences

Epidemiology

Leisure physical activity and age at menarche
Jocelyne Moisan, François Meyer, and Suzanne Gingras 1170

Potential misclassification in studies of physical activity
Bruce Arroll and Robert Beaglehole 1176

Biodynamics

Lumbar spine loads during the lifting of extremely heavy weights
J. Cholewicki, S. M. McGill, and R. W. Norman 1179

Electromechanical delay during knee extensor contractions
Egbert J. Vos, Japp Harlaar, and Gerrit Jan van Ingen Schenau 1187

Physical Fitness and Performance

Injuries and adherence to walk/jog and resistance training programs in the elderly
Michael L. Pollock, Joan F. Carroll, James E. Graves, Scott H. Leggett, Randy W. Braith, Marian Limacher, and James M. Hagberg 1194

Peak oxygen uptake and maximal power output of Olympic wheelchair-dependent athletes
H. E. J. Veeger, M. Hadj Yahmed, L. H. V. van der Woude, and P. Charpentier 1201

Special Communications

Methods

Daily variation in gastric emptying when using the double sampling technique
Ed J. Beckers, Nancy J. Rehrer, Wim H. M. Saris, Fred Brouns, Foppe ten Hoor, and Arnold D. M. Kester 1210

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Michelle H. Cameron 1213

Response
David H. Perrin 1213

Letter to the Editor-in-Chief
Javier Padilla 1213

Editorial

Clinical Sciences

Case Study

A young wrestler with antecedent both-knee Osgood Schattler's disease and JOCD
James M. Kyle and Joseph R. Leaman 1219

Clinical Investigations

Effects of a resistive training program on lipoprotein—lipid levels in obese women
James M. Manning, Cathryn R. Dooly-Manning, Kathy White, Ingo Kampa, Samuel Silas, Mark Kesselhaut, and Marc Ruoff 1222

Bone mineral density of the calcaneus in 70- to 81-yr-old male athletes and a population sample
Harri Suominen and Paavo Rahkila 1227

Corrigendum 1233

Clinical Epidemiology

Effects of physical exercise on pregnancy outcomes: a meta-analytic review
Enga A. Lokey, Zung Vu Tran, Christine L. Wells, Barbee C. Meyers, and Andrea C. Tran 1234

Basic Sciences/Regulatory Physiology

Brief Review

The cytoskeleton of skeletal muscle: is it affected by exercise? A brief review
Clare M. Waterman-Storer 1240

Original Investigations

Elevated body temperature in female rats after exercise
Evelyn Satinoff, Stephen Kent, and Mark Hurd 1250

Inheritance of acute cardiac changes during bicycle exercise: an echocardiographic study in twins
Edith C. Bielen, Robert H. Fagard, and Antoon K. Amery 1254

Effect of an endurance triathlon on pulmonary function
Nicholas S. Hill, Cynthia Jacoby, and Harrison W. Farber 1260

Effects of endurance training and long distance running on blood viscosity
Stephen C. Wood, Michael P. Doyle, and Otto Appenzeller 1265

Reexamination of Stewart's quantitative analysis of acid-base status
Yitzhak Weinstein, Avraham Magazanik, Amos Grodjinovsky, Omri Inbar, Ron A. Dlin, and Peter A. Stewart 1270

Applied Sciences

Psychobiology and Social Sciences

Estimates of Type A behavior do not predict perceived exertion during graded exercise
Rod K. Dishman, Ralph E. Graham, Robert G. Holly, and James G. Tieman 1276

Effects of nicotine on perceived exertion during low-intensity activity
Kenneth A. Perkins, Joan E. Sexton, Rena D. Solberg-Kassel, and Leonard H. Epstein 1283

Biodynamics

Moment–length relations of rectus femoris muscles of speed skaters/cyclists and runners
W. Herzog, A. C. Guimaraes, M. G. Anton, and K. A. Carter-Erdman 1289

Physiological and kinanthropometric attributes of elite flatwater kayakists
Rod W. Fry and Alan R. Morton 1297

Physical Fitness and Performance

Isometric muscle force production as a function of age in healthy 20- to 70-yr-old men
Michael G. Bemben, Benjamin H. Massey, Debra A. Bemben, James E. Misner, and Richard A. Boileau 1302

The cardiovascular and metabolic effects of bench stepping exercise in females
Michele Scharff Olson, Henry N. Williford, Daniel L. Blessing, and Roy Greathouse 1311

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
William J. Kraemer 1318

Response
Kenneth H. Pitetti 1319

Letter to the Editor-in-Chief
Albert C. Hergenroeder 1319

Response
Diane L. Elliot and William O. Roberts 1320

Book Reviews 1321

Volume 23, No. 12, 1991

Clinical Sciences

Case Study

Nontraumatic femur fracture in an oligomenorrheic athlete
Carin E. Dugowson, Barbara L. Drinkwater, and John M. Clark 1323

Clinical Investigations

Normalization of the metabolic profile in obese women by exercise and low fat diet
A. Tremblay, J.-P. Després, J. Maheux, M. C. Pouliot, A. Nadeau, S. Moorjani, P. J. Lupien, and C. Bouchard . . . 1326

Clinical Management

Management of suspected iron deficiency: a cost-effectiveness model
Diane L. Elliot, Linn Goldberg, and Marcella Loprinzi 1332

Basic Sciences/Regulatory Physiology

Brief Review

Blood volume: its adaptation to endurance training
Victor A. Convertino 1338

Original Investigations

Muscle mass effect on arterial desaturation after maximal exercise
Jess Rasmussen, Birgitte Hanel, Bertil Diamant, and Niels H. Secher 1349

Red blood cell pulmonary capillary transit time during exercise in athletes
Gordon L. Warren, Kirk J. Cureton, Wayne F. Middendorf, Chester A. Ray, and Julie A. Warren 1353

Locomotor-respiratory coupling develops in novice female rowers with training
Donald A. Mahler, Bernadette Hunter, Timothy Lentine, and Joseph Ward 1362

Diminished baroflex control of forearm vascular resistance following training
G. W. Mack, C. A. Thompson, D. F. Doerr, E. R. Nadel, and V. A. Convertino 1367

Applied Sciences

Epidemiology

Muscle strength as an indicator of the habitual level of physical activity
Rivka Black Sandler, Ray Burdett, Mark Zaleskiewicz, Carma Sprowls-Repcheck, and Michael Harwell 1375

Biodynamics

Linear kinematics of the men's 110-m and women's 100-m hurdles races
Craig McDonald and Jesús Dapena 1382

Angular momentum in the men's 110-m and women's 100-m hurdles races
Craig McDonald and Jesús Dapena 1392
